

Newtown to city Baseline Survey

Kia ora

Our city continues to grow and thrive, so does our population. We have a vision to reshape our city to better suit our future. We're addressing climate change, allowing for more houses and creating more space for people in our city. We want Wellington to be a city where people can move easily and freely without relying on their car. That's why we're opening up our streets for more people to walk, ride bikes or the bus, scooters, and skateboards. We are making interim street changes between Newtown and the city in 2022.

The route will start at Mein Street, travel along Riddiford St, Adelaide Road, through the Basin Reserve, down Cambridge Terrace and connect to the waterfront. We'll be using materials that can be moved around and tweaked as needed, based on feedback and how well it's working.

The data we gather now, and in the future, will help us understand the impact of the changes we make to the street. In this survey, we'll ask about your current experiences of this route and how you get around. **It will take about 5-10 minutes to complete.**

Thanks for taking the time to complete this survey.

You can contact us at newtowntocity@wcc.govt.nz if you have any questions.

The ways you move around the area

How do you currently travel on Riddiford Street, Adelaide Road and Cambridge Terrace? *(Select as many as you like):*

- Car/van - driver Car/van - passenger Motorbike
- Truck Bus - passenger Bus - driver
- Walk Manual bike E-bike
